

Platform Requirements

General Information

- With the sole exception of Fast DBTools, all TaiRox programs must be run in a Sage 300 environment.
- Some TaiRox programs are written in C# and require a **.NET Framework**. By default, one of these frameworks will be installed with a Windows 7 or higher operating system.
- Some TaiRox programs send email messages using a widely-used package (Chilkat) that provides extensive hand-shaking diagnostics.
 - TaiRox programs written in VB6 install a Chilkat ActiveX component that requires Microsoft's **Visual C++ 2008 Redistributable**. By default, this runtime will be installed with a Windows 7 or higher operating system with current updates.
 - TaiRox programs written in C# install a Chilkat .NET component that requires Microsoft's **Visual C++ Redistributable for Visual Studio 2015, 2017 and 2019**. By default, this runtime will be installed with a Windows 7 or higher operating system.
