

Accounting Status

Accounting Status helps you manage Sage 300 accounting processes by providing status information for all core modules in a single window. This benefit is targeted at larger clients who have several people involved in closing at month-end or year-end.

The program displays un-posted batches and un-transferred sub-ledger transactions from all Sage 300 applications in a single window. User can drill-down from that window to see batch control records and other pertinent information.

Using Accounting Status

The Accounting Status icon appears under **TaiRox Productivity Tools > General Ledger Tools** on the Sage 300 desktop and can be copied to other menu locations.

Enterprise Productivity Tools appear if you have an Enterprise license from TaiRox Software.

The Accounting Status window appears as follows:

The screenshot shows the 'Accounting Status' window with a table of application statuses. The table is organized by application and lists various batch statuses and counts.

Application	Batch Status	Count	Batch Status	Count	Batch Status	Count	Batch Status	Count

- The program provides a section for each Sage 300 application that displays the status of batches and other pertinent data that may need to be addressed as part of a period-end process.
- Click underlined counts to drill-down to more information.
 - Generally, green indicates "Ready to Post" and blue and red indicate "Open" or "Not Complete".
 - Red items would normally need to be completed as part of a period-end process.

Sample account statuses and drilling down to details

The screens in this section are for illustration purposes; they show all possible items that might appear. Normally, much less information will be visible.

For example, the following Account Receivable section would not show the "Batches to Create" lines unless there actually are batches that need to be transferred to the General Ledger.

Accounts Receivable	Invoice Batch Status	Receipt Batch Status	Adjustment Batch Status	Refund Batch Status
	Open	<u>1</u> Open	<u>1</u> Open	<u>1</u> Open
	Ready To Post	<u>2</u> Ready To Post	<u>1</u> Ready To Post	<u>1</u> Ready To Post
	General Ledger Batches to Create			
	Invoice Batches	Yes		
	Receipt Batches	Yes		
	Adjustment Batches	Yes		
	Refund Batches	Yes		
	Revaluation Batches	Yes		

- Click on the Open A/R Invoice Batch count to display a list of those items:

Batch Number	Batch Date	Description	Number of Entries	Batch Total	Batch Type	Batch Status	Source Application	B.
68	05/07/2020	July Transactions	1	108,250	Entered	Open	AR	N

- Click on the O/E Active Orders Not Complete count to display a list of those items:
