Extended Remit-To Locations

Extended Remit-To Locations is an enhanced replacement for the Sage 300 A/P Remit-To Locations form. It provides you with more features while adding or editing a remit-to location.

The following screens show the extra SmartFinder Vendor No. button provided by the Extended Remit-To Locations screen:

The SmartFinder search form will appear for vendors and remit-to locations.

How to use Search:

• Enter one or more words or word fragments in the search entry field to search multiple tables and fields.

S PTDEMO	- • •						
<u>F</u> ile <u>H</u> elp							
Search	seattle	Find					
Active Ven	Active Vendors Only						

- Click the checkbox to filter for Active vendors.
- Search returns vendors and remit-to location records which contain the search string in any of the searched fields.

For example, one record may have "Royal" in the name, where another may have "Royal" in the address field. Both records will be displayed.

- **Using multiple words in the search?** Enter "300 Main" and the search will find entries "300 Main Street" as well as "123 Main Street, Suite 300".
- **Searching for a phone number?** Enter the phone number segments separated by blanks. Enter "451 8991" and the search will find "(451) 555-8991" as well as "(408) 451-8991".

Note:

- All of the word fragments must be present in one of the fields being searched. (For example, if you searched for "Ross Blvd", you will not see a vendor where "Ross" is in the Vendor Name field and "Blvd" is in the Address 1 field.)
- Addresses (e.g. the vendor address) are treated as a single field.

What's displayed in the Search form:

- The top grid displays the vendors matching the search criteria.
- The bottom grid displays the remit-to locations that match the search criteria.

Note that the remit-to locations *may not* be related to the vendor records displayed in the top part of the screen. The screen below displays remit-to locations for two different vendors.

• Click the Address Line 1 column heading or double-click the address to launch **Google Maps** with the vendor address or remit-to address.
